Pathway to Proficiency - Grade 8

◆ Enterprise Test

— Trend line is statistically calculated after three or more tests to show the direction the scores are moving.

★ State Test 2016 is the STAR Reading score (858 SS) that is approximately equivalent to the proficiency threshold (Level 3) on the 2016 test given in the spring.

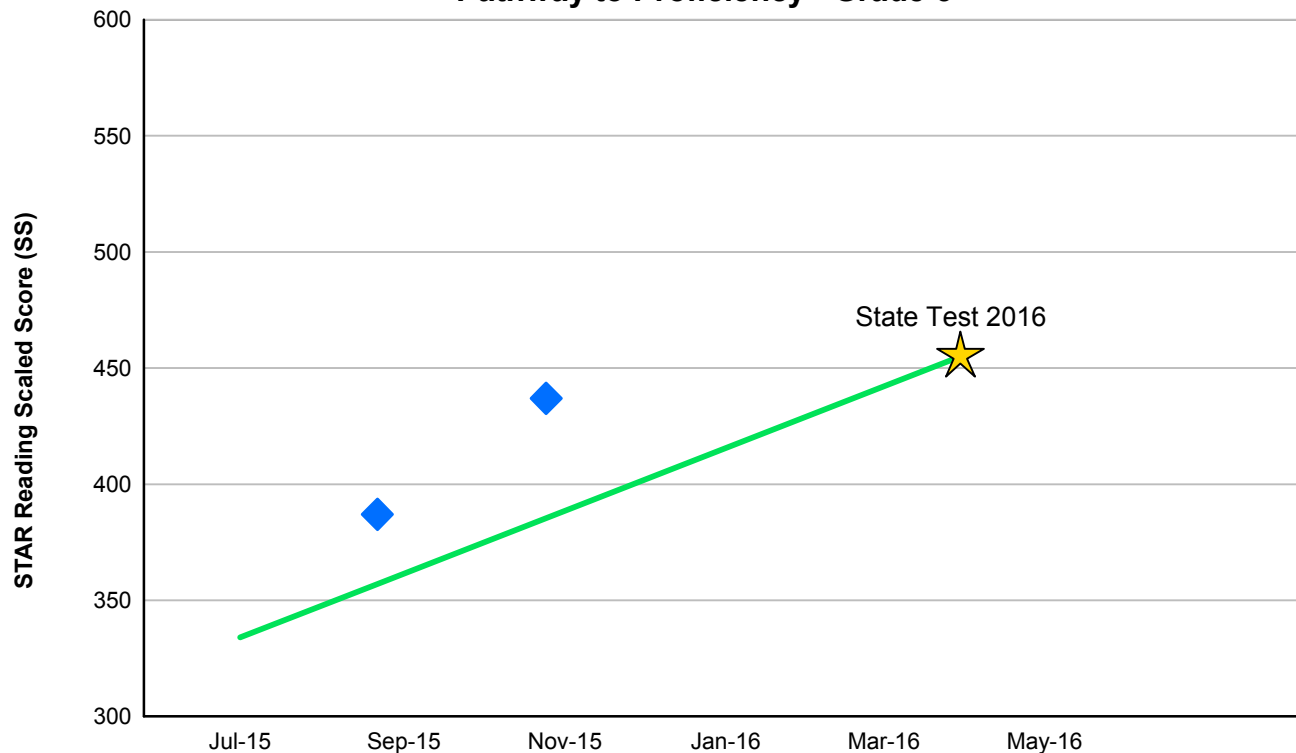

— Pathway to Proficiency represents typical growth for a student who minimally achieves proficiency on the test. A test score below the pathway indicates the student will need to improve at a higher than average rate to reach proficiency. A score above indicates the student is on the pathway to score at or above proficient.

Pathway to Proficiency - Grade 3

◆ **Average Scaled Scores (SS)** include students who have at least one score in a test period. If a student has more than one score in a test period, the last one is used.

— **Trend line** is statistically calculated after three or more tests to show the direction the scores are moving.

★ **State Test 2016** is the STAR Reading score (455 SS) that is approximately equivalent to the proficiency threshold (Level 3) on the test given in spring.

— **Pathway to Proficiency** shows typical growth for students who minimally achieve proficiency on the test. An average score below this line indicates there are students who will need to improve at a higher rate than average to reach proficiency by the state test. An average score above this line indicates some, or maybe all students are above the Pathway to Proficiency. Use the tables below to identify students who may benefit from extra help.
