**Key questions to ask based on this and other information:** Are you satisfied with the number of students at each level of performance? Next, consider the level or score that indicates proficiency. Which students just above you "worried about" and what support within or beyond core instruction is warranted? What support is warranted for students below? Do all students represented by your lowest level need urgent intervention?

Use these key questions to help determine next steps.

Screening is the first step in Response to Intervention (RTI). Use this report for grade-level planning and identifying students who need the most help.

<sup>d</sup>Benchmark adjusted for time of year using student growth norms

Pages following the graph provide a breakdown of which students are in each category.
