The Renaissance™ Data Integrator charts a comprehensive path for success.

RDI Phases

We're with you every steps of the way as the Renaissance Data Integrator charts a logical progression throughout the school year.

1. Introductions
RDI Systems Consultant explains RDI process, timelines, roles, and responsibilities.

2. Automate the SIS Data Extract
RDI Systems Consultant works with district IT staff to set up nightly transfer downloads through secure data protocol systems (WinSCP, Putty).

3.RDI Programming
Programming can take up to 2 weeks (possibly more in July–September).

6. Demo Site Review Call
Demo site set up so you can review and validate data in the system. RDI Systems Consultant will walk you through the site so you know what to expect. **Note:** Testing is not possible on the demo site.

5. Site Merging
Merge several school sites into a single district site, if necessary.

4. User Matching
If you already have Renaissance Place setup data from a prior year or program use, RDI Systems Consultant will match SIS data against it, remove duplicates, and produce extract files for updating and resubmission.

7. User Names and Passwords
RDI Systems Consultant will discuss default user names and passwords for students and personnel, along with best practices and Active Directory Integrations.

8. Go Live
Agree on a date for the site to go live, inform schools of the date; Renaissance Learning finishes the installation on that date.

9.Extracts
If necessary, RDI Systems Consultant can provide extracts from any product and set up automated nightly .csv file exports to an SFTP site.

10. End-of-Year Rollover, New Year Prep
At end of school year, RDI Support Team will contact you to discuss summer school, turning off RDI, and getting any available information about the new school year (dates, information that is changing, etc.).

Renaissance Place™

The Renaissance™ Data Integrator provides data mobility at its finest.

From SIS changes to new school year rollovers, daily support monitoring, data integration consulting, and much more, Renaissance Learning has you covered. The Renaissance Learning Data Integrator is a state-of-the-art resource with world-class support.

Course	Course ID	Total Classes
Language Arts	10410	3
Language Arts	10432	3
Language Arts	10454	3
Library	10492	1
Math	10458	3
Math	10436	3

Courses
RDI will manage all courses from your SIS.

School	District Number
Bayside	9
East	4
Lincoln	7
Northside	2
Riverside	8
Southside	3
Washington	6
West	5

Schools
RDI will manage all schools regardless of program use. In the event they purchase later, setup is complete.

Student	Grade	ID	School
ABAYNEH, Cameron	1	8540	West
Abebe, Quantereus	4	8243	West
Ables, Alea	8	2680	Washington
Ables, Jason	7	1506	Washington
Ables, Paola	6	4201	Washington
Abraha, Nimshi	12	3498	Riverside
Abraham, Alyssa	1	7363	East
Abraham, Shianne	1	7345	East
ABSHIRE, Dontra	4	7380	East
Ackley, Micalyn	4	3140	West

Students and Teachers
RDI will manage all your student and teacher information (including Characteristics) on a nightly basis, relieving any need to enter or maintain user information.

Name	Type	Start Date	End Date
CR period	Semester	7/15/2011	5/26/2012
*Quarter 1	Quarter	8/8/2011	10/14/2011
*Quarter 2	Quarter	10/17/2011	12/20/2011
*Quarter 3	Quarter	1/3/2012	3/8/2012
*Quarter 4	Quarter	3/9/2012	5/22/2012

School Years and Terms
RDI will manage all terms that classes and reporting periods are tied to.

Class	Marking Period	Teacher
Howell, THOMAS R 6400	2011-2012	THOMAS R Howell
Stanton, Gabriel 6378	2011-2012	Gabriel Stanton
Staton, Malik 6437	2011-2012	Malik Staton
